

Case Recording & Transcription Services

Converting Voice Recording to Text

We understand that for many businesses, it is important to capture and store verbal information in text format. Therefore, we take great pain to ensure that we provide fast, faithful, precise and confidential transcription services for a range of business needs including transcriptions for the courts, corporations, educational institutions, the media, writers and more. Our transcription services are able to convert both recorded and live speech into written and electronic text documents. Customers may choose to have our staff attend an event to transcribe the speech to text in real time, e.g. Court proceedings, speeches, or have the transcriptions created through a recording, e.g. doctors' notes, telephone conversations.

We are able to provide transcripts for:

We provide two types of transcription services in English or Malay

In-house SCRT Services

With our in-house services, the audio or video recording to be transcribed is collected from the customer and transcribed at our offices. Transcripts will be delivered quickly, reliably and securely.

On-site SCRT Services

Our on-site services mean that transcripts are created at the customer's premises in real time. This has the advantage of allowing the transcripts to be delivered soon after review and editing using the live recorded video.

Why Us ?

On-site Services

We provide an on-the-spot transcribing service which allows transcripts to be created in real time and delivered soon after review and editing using the live recorded video.

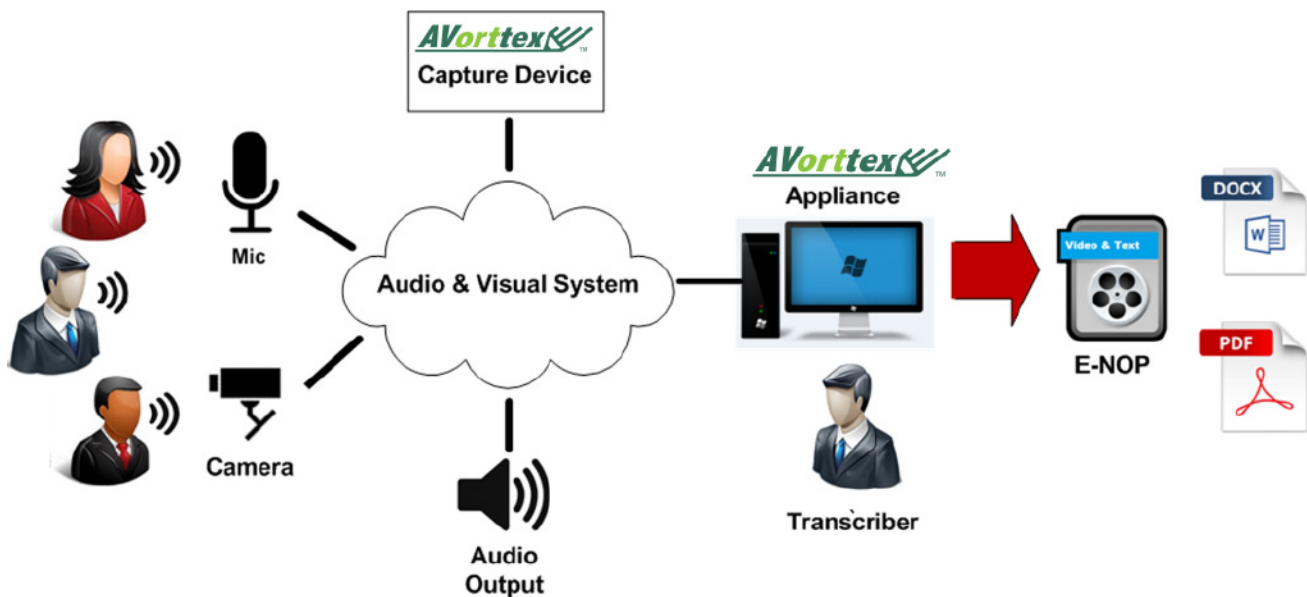

Fast delivery

Transcripts created with our in-house transcribing service are delivered quickly and professionally as soon as possible or on a specified date convenient to the customer.

Accuracy & Reliability

All our Transcribers are trained and certified and able to produce transcripts of high accuracy. We research any esoteric or unusual words or acronyms which occur in the file to ensure that the transcripts are contextually correct.
