

Online Bill Presentment and Payment Gateway

Globalise your business with PaymentGalaxy®

PaymentGalaxy® expands your business horizons allowing you to reach out to customers from around the country and beyond, providing your customers with a wide range of flexible payment options

www.paymentgalaxy.com

*Trustmark Certified Payment Gateway
(Malaysia Trustmark for Private Sector Level 3)*

PaymentGalaxy® is the pinnacle of electronic payment facilities providing you with all the traditional functions and features of an electronic payment solution as well as so much more. Nationally Trustmark certified, PaymentGalaxy® ensures the security of all transactions that flow through its services, safeguarding the information of both merchants and customers alike.

PaymentGalaxy®'s Electronic Bill Presentment & Payment (EBPP) portal frees you from the need to create and manage your own payment website while enhancing the bill payment user experience by providing a wide range of bill payment options and allowing users to view bills online.

ePayNow is our electronic payment gateway that provides your customers with all the flexibility of being able to shop and pay online while enhancing the branding of your business with an individualised identity for your payment gateway.

PaybillsMalaysia is an online one stop payment service. Through our Electronic Bill Presentment & Payment (EBPP) Portal aggregates bills from multiple service providers such as electric companies, telecoms, local authorities, libraries and more onto one site, providing a one-stop web payment service for consumers. Not only can users pay their bills online, they can also view the itemized bills from their service providers. Transactions are carried out securely either by direct debit from a customer's bank accounts or via credit cards.

Features and Benefits

Improve customer satisfaction and service

- Reduce the need for counter staff
- Additional payment channel option for your customers

Maximize collection with Centralized Collection Channel approach

- Each collection channel incurs costs. Minimal channels mean maximum collection

Reduce operation cost

- Cut down on traditional bill printing and mailing. Save on paper, postage and HR costs
- Minimize cheque collection and bank-in processes

Speed up revenue collection

- Immediate bill delivery to your customers, no more missing or late bills
- Timely remittance from bank. Daily reconciliatory reports and daily payment data files are available

Simple and affordable system implementation and deployment

- A ready-to-use web portal that eliminates huge up front capital investment
- Fast and easy to deploy

ePayNow is an online payment gateway that can be utilised by merchants from all business sectors and industries. It enables you to provide your customers with an individually branded online payment facility on your own website without the need to worry about the upfront costs required to build your own online payment system or the security challenges that come from dealing with online payments. Transactions are carried out securely either by direct debit from a customer's bank accounts or via credit cards.
