INTRODUCTION

This Adobe Dreamweaver and Flash web design course comprises two parts - Understanding and using Flash; and Understanding and using Dreamweaver

Adobe Dreamweaver gives you the ability to build high impact, effective web pages, while Adobe Flash allows you to add a whole extra level of web design animation, interactivity and dazzling special effects. By mastering both programmes you'll have what it takes to impress both an online audience and an employer.

OBJECTIVES

In this course, participants will learn to navigate the Flash interface, and gain knowledge in using the tools and features necessary for drawing graphics and creating animation.

Participants also learn to use Dreamweaver to create web pages, focusing on the content, styling, and design.
